

DAY 6

The screenshot shows the Jenkins web interface. At the top is the Jenkins logo and navigation bar. Below it is the 'Dashboard' section with a breadcrumb 'last'. The main content area is titled 'last' and includes a 'Stage View' table. The table has six columns representing different stages of the build process. The first row shows the duration of each stage for the current build. The second row shows the duration of each stage for the previous build. Below the table is a 'Permalinks' section. The bottom of the image shows a Windows taskbar with various application icons and system clock.

Declarative Tool Install	Clean Workspace	Git Checkout	Install Node	Docker Build & Push	Deploy Docker Container
277ms	358ms	1s	26s	1min 43s	1s
317ms	358ms	1s	26s	1min 43s	1s
